Descriptions of Labor Categories

GS-10F-0189-J

SIN 899-1 Environmental Consulting Services

Labor Category	Responsibilities & duties	Minimum experience and or education
Professional Engineer	Manages technical design issues in their specialty conducting analysis, design, and project management.	Requires at least one current state license in their area of specialty and 5 years' experience in the area of specialty. Requires 4 year science or engineering degree.
Professional Geologist	Lead the investigation of geologic hazards and geologic constraints for the planning, design and construction of public and private engineering projects, forensic and post-mortem studies, and environmental impact analysis .	Requires at least one current state license in their area of specialty and 5 years' experience in the area of specialty. Requires 4 year science or engineering degree.
Certified Industrial Hygienist	Investigate health exposure risks and develop recommendations to reduce risks to route of entry. Develop processes and procedures to minimize health risks.	Requires current CIH license and 5 years' experience in the area of specialty. Requires 4 year science or engineering degree.

Environmental Engineer	Investigates environmental liabilities covering air, water, and solid media. Develops recommendations to manage risks.	Requires at least 5 years' experience in the area of specialty. Requires 4 year science or engineering degree.
Risk Assessor	Assesses and develops risk studies covering environmental risks.	Requires at least 5 years' experience conducting risk studies. Requires 4 year science or engineering degree.
Technician	Assists senior personnel conducting field data gathering, documentation searches, and administration of technical tasks.	Requires at least 2 years and 2 years college in technical field.
Principal Project Manager	Manages entire project covering health, safety, schedule, and financial aspects to ensure proper contract execution.	Requires 10 years managing projects. Requires 4 year science or engineering degree. If no degree requires minimum of 15 years' experience.
Geologist	Investigates geologic hazards and geologic constraints for the planning, design and construction of public and private engineering projects, forensic and post-mortem studies, and environmental impact analysis .	Requires 1 year experience and is guided by the Profession Geologist. Requires 4 year science or engineering degree.
Clerical/Secretarial	Assist staff in the office duties including typing reports, making copies, and assisting with travel plans for office staff.	Requires 3 years as clerical worker. High school graduate.
Archaeologist	Conducts scientific study of material remains of past human life and activities. Principal activities include identification of the location, surveying, and mapping of sites and the excavation, classification, dating, and interpretation of materials to place them in historical context.	Requires 4 year science in archaeology with a minimum of 5 years field experience.
Landscape Architect	Designs and plans landscapes to improve the ways in which people interact with the landscape, as well as with reducing the negative impacts that human use has upon sensitive landscapes. Responsibilities include urban design, community and regional planning, interior and exterior garden design, agricultural and rural land-use planning, parks and recreation, historic site and natural area preservation, landscape restoration and management, research and academic programs, energy and water conservation, and environmental planning.	Requires 4 year degree in area of study with a minimum of 5 years' experience.
Land Survey Crew (2-personnel)	A survey crew consisting of a licensed surveyor and assistant responsible to establish or reestablishing lengths and directions of boundary lines.	Crew Chief: Licensed as land surveyor with a 4 year degree and 4 years' experience. Assistant shall have a minimum of an Associate Degree in

		surveying or similar trade with 1 year experience.
Biologist	Responsible to study organisms and their relationship to their environment including research to discover underlying mechanisms that govern how organisms work. Typical goals strive to develop or improve medical, industrial or agricultural processes.	Requires a 4 year degree in science related field and 4 years' experience.
Botanist	Conducts the study of plants and plant life. Botanical studies range from microscopic observations of the smallest and obscurest plants to the study of the trees of the forest.	Requires a 4 year degree in science related field and 4 years' experience.
CADD Operator	Creates computer aided drafting documents. Is responsible to ensure documents are delivered to staff according to schedule developed for each project.	Requires 1 year experience. Requires Associate Degree in computer drafting.
Planning/Land Use Project Manager	Studies and develops options for the long-term development or conservation of an area and the establishment of a relationship between local objectives and regional goals. Incorporates laws and regulations from region into study. Establishes zones that divide an area into districts which are subject to specified regulations. Permitting activities are coordinated with environmental specialists.	Requires a 4 year degree in science related field and 4 years' experience.
Air Quality Project Manager	Investigates air quality issues, develops permitting for facilities, and oversees the air consulting projects. Conducts measurements with various equipment and develops recommendations to manage air quality risks.	Requires 1 year experience. Requires 4 year science or engineering degree.
Pollution Prevention	Investigates pollution prevention and waste minimization. Develops options for green alternative and makes cost saving recommendations for commercial facilities.	Requires 1 year experience. Requires 4 year science or engineering degree.
Noise Monitor	Investigates noise prevention to manage OSHA and NEPA issues. Develops recommendations to ensure noise standards and guidelines are incorporated into projects.	Requires 1 year experience. Requires 4 year science or engineering degree.
Airspace Analysis	Investigates air traffic analysis around airports. Develops recommendations on planning aspects of airport infrastructure ensuring smooth air flow patterns are incorporated into projects.	Requires 10 year experience. Requires 4 year science or engineering degree.
Regulatory Compliance	Investigates regulatory compliance covering air, water, and solid waste. Conduct audits, makes recommendations for corrections, and communicates non-	Requires 1 year experience. Requires 4 year science or engineering degree.

	compliance issues with regulated community.	
Community Relations Project Manager	Manages environmental risks associated with high visibility projects by communicating between client and nearby community stakeholders. Develops strategy to manage community relation issues and publishes risk communication strategy to various impacted parties.	Requires 5 year experience. Requires 4 year community relations degree.

SIN 899-3 Environmental Training Services

Labor Category	Responsibilities & duties	Minimum experience and or education
Program Manager	Manages training programs to ensure delivery and content are suitable to type of program covered. Assesses quality of deliverable to ensure program is effective.	Requires 10 years managing projects. Requires 4 year degree preferably in communication. If no degree requires minimum of 15 years' experience.
Senior Training Consultant	Assists Program Manager to ensure delivery and content are suitable to type of program covered. Assesses quality of deliverable to ensure program is effective.	Requires 7 years managing projects. Requires 4 year degree preferably in communication. If no degree requires minimum of 15 years' experience.
Training Consultant	Assists Program Manager to ensure delivery and content are suitable to type of program covered. Assesses quality of deliverable to ensure program is effective.	Requires 5 years managing projects. Requires 4 year degree preferably in communication. If no degree requires minimum of 15 years' experience.
Training Assistant	Works under the Training Consultant and the Senior Training Consultant to assist in the development of media used in the training programs. Develops testing tools to ensure media is effective.	Requires 4 year degree in communication. Requires 2 years' experience.
Research Assistant	Works under the Training Consultant and the Senior Training Consultant to provide informative and accurate information used in the training programs. Research may involve human behavior studies to bolster impact on program delivery.	Requires 2 year Associate degree in communication. Requires 1 year experience.
Technician	Assists senior personnel in developing training programs.	Requires at least 2 years and 2 years college in technical field.

STANDARD FORM 30 (REV 10-85)
 Prescribed by GSA
 FAR (48 CFR) 53.243

Modification #: PS-0005

Contract #: GS-10F-0189J

Contractor: Marc Enviro Services, Inc.

3. All labor categories remain the same as originally awarded, and are hereby incorporated into and made a part of the contract. (5 pages)

4. The labor categories that fall under the requirements of the Service Contract Act (SCA) (i.e. non-exempt labor categories) are identified in the matrix below. All prices for these labor categories meet or exceed the requirements in the SCA Wage Determination identified below. The matrix and narrative are incorporated into this contract and must also be included in the contractor's electronic price list on GSA Advantage.

SCA MATRIX

Marc Enviro's SCA Labor Category	SCA Equivalent code-Title	WD #
Secretary	01311-Secretary I	05-2325
CADD Operator	30061-Drafter/CADD Operator I	05-2325
Technician	30080-Engineering Technician	05-2325

The SCA is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination Numbers(s) identified in the matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

All recovery purchasing services must be performed and reported (for the purposes of payment of the Industrial Funding Fee) under the SINs using the "RC" designation.

Contractor shall update its GSA Advantage file within 30 days. Instructions are available at www.gsa.gov/mgmtservices. Use the MSC references link to download SIP instructions. Note that GSA Advantage file shall include labor category descriptions to include minimum education and minimum experience requirements, and SCA labor categories with the SCA matrix and narrative. Price list shall also designate recovery purchasing SINs ("RC").
